

SQAD-6 Quality Control Notice (QCN)

Sub Code: DRAW

Manufacturer drawing supplied with material

Each item ordered for which this quality statement is specified requires pre-submittal of vellum or Sepia drawings, including parts list or Bill of Materials. The supplier shall provide the latest revision of the drawing specified in the Exelon PO/Contract. The drawings specified in this quality statement are required for an item's initial procurement and are required on subsequent procurement only if the originally submitted drawing has been revised.

- A.** Outline drawings - Prior to delivery of the item, the supplier shall submit general arrangement or outline drawings that will be used and relied upon in the preparation of engineering and final construction drawings. These drawings must show the approximate weight and all principle dimensions of the equipment including size and location of mounting bolts and outside electrical and piping connections.
- B.** Certified drawings - Prior to item delivery, the supplier shall submit for Exelon approval, a certified controlled drawing including a parts list or Bill of Materials representing the item being furnished.
