

SQAD-EMBED

Requirements for embedded firmware or software for spare parts, components, systems or equipment

- 1.1 Vendor shall not withhold any proprietary information that would subject Exelon to potential risks of violating any procedural, operational and/or regulatory requirement
- 1.2 Vendor shall promptly disclose their proprietary status related to said firmware or software. A confidentiality and non-disclosure agreement shall be executed by both parties
- 1.3 Vendor shall provide full disclosure of all embedded performance permissives, limitations, automatic resets to default parameters and plant interactions related to said firmware of software
