

Constellation: Texans' Long-Time, Reliable Energy Supplier

Constellation Energy has a strong and longstanding presence in Texas, and we are confident that we will provide substantial benefits to the growing south Texas region through our investment in the South Texas Project.

We provide energy services and solutions to more than 250,000 homes and 17,000 businesses in the state, employ more than 580 people, and paid more than \$45 million in state and local taxes in 2023. Constellation and our employees donated more than \$630,000 to Texas charitable organizations in 2023 and our employees volunteered 7,000 hours with nonprofits throughout the state.

Constellation in Texas

Our Texas gas-fired power plants are among the **most efficient gas-powered plants in the nation.**

With nearly **100 turbines total**, our wind projects provide clean, carbon-free energy to Texans in Austin and across the Rio Grande Valley.

In 2023, we purchased a **42% stake in the South Texas Project.**

By the Numbers

Constellation's Texas Assets

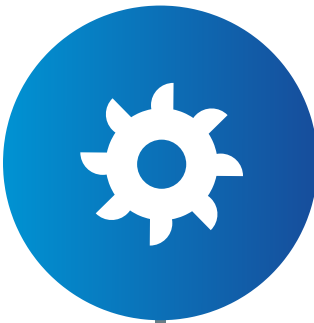

South Texas Project

South Texas Project Electric Generating Station is a 2,645-megawatt, dual-unit nuclear plant located about 90 miles southwest of Houston. It is one of the newest and largest nuclear power facilities in the nation, which produces enough carbon-free electricity to power 2 million Texas homes.

Wolf Hollow II Generating Station

Wolf Hollow II Generating Station is a 1,115-megawatt (MW) combined-cycle gas and steam turbine generation facility in Granbury, Texas.

Colorado Bend Generating Station

Colorado Bend II Generating Station is a 1,143-megawatt combined-cycle gas and steam turbine generation facility in Wharton, Texas.

Sendero Wind Project

Sendero Wind Project is a 39-turbine, 78-megawatt wind project located in Jim Hogg and Zapata Counties.

Handley Generating Station

Located in Fort Worth, Handley Generating Station is a three-unit, 1,265-megawatt natural gas-fueled electric generation facility.

Whitetail Wind Project

Whitetail Wind Project is a 57-turbine, 92-megawatt wind project located in Webb County, Texas.
